Understanding Your Funded Hours

You can access up to 22.8 funded hours per week (equivalent to 1140 hours annually) or 11.4 funded hours per week (570 hours annually). These hours are used against 5 or 10-hour sessions.

This structure often leaves an additional 2.8 or 11.4 hours per week available, which you can seamlessly integrate into your child's permanent booking pattern to best suit your family's needs.

Understanding how your partially funded session costs are calculated:

Full Day £77.75 Worked Example	—	2.8 hours of residual funding x £7.77 hourly rate = £21.76	+	Complete care package £11.50 / 10 hours x 2.8 residual hours = £3.22	=	£59.21 Cost of a full day using 2.8 residual funded hours
Am Session £50.75 Worked Example	—	2.8 hours of residual funding x £10.15 hourly rate = £28.42	+	Complete care package £7 / 5 hours x 2.8 residual hours = £3.92	=	£26.25 Cost of a full day using 2.8 residual funded hours
Pm Session £50.75 Worked Example	—	2.8 hours of residual funding x £10.15 hourly rate = £28.42	+	Complete care package £5.75 / 5 hours x 2.8 residual hours = £3.22	=	£25.55 Cost of a full day using 2.8 residual funded hours

Understanding how your funded session costs are calculated

Full Day £77.75 Worked Example	—	10 hours of funding x £7.77 = £77.75	+	Complete care package £11.50	=	£11.50 Cost of a full day using 10 funded hours
